(binodal situation and step deviation method for finding the mean to be avoided)Probability: Classical definition of probability. Simple problems on heights and distances. Relationship between discriminant and nature of rootsArithmetic progressions: Motivation for studying arithmetic progression derivation of the nth term and sum of the first n terms of A.P.Mathematics: Unit 03Lines (in two-dimensions): Concepts of coordinate geometry, graphs of linear equations. Only simple identities to be givenHeights and distances: Angle of elevation, angle of depression. Oversized hat perfect for bigger heads. Values of the trigonometric ratios of 30°, 45° and 60°. Algebraic conditions for number of solutionsPair of linear equations in two variables: Solution of a pair of linear equations in two variables algebraically-by substitution, by elimination. Fleming's right hand ruleScience: Unit 05Our environment: Ecosystem, environmental problems, ozone depletion, waste production and their solutions. HIV/ AIDS. Relationship between zeros and coefficients of quadratic polynomialsPair of linear equations in two variables: Pair of linear equations in two variables and graphical method of their solution. consistency/ inconsistency.
